ACME Corp — Form 10-Q (Fake, for testing purposes only)

Item 2. Management's Discussion and Analysis

Azure segment revenue grew 28 percent year over year to $5 billion in the third quarter.

This growth was driven by continued adoption of cloud infrastructure services across enterprise customers.

Item 1. Business

The company employs approximately 50,000 engineers dedicated to AI development.

These teams are organized across research, applied science, and platform engineering functions.
